

receiptme

IN TODAY'S WORLD WHERE INFORMATION IS REQUIRED AT OUR FINGERTIPS,
PRINTING, POSTAGE & ACCUMULATION OF PAPER RECEIPTS
IS A THING OF THE PAST.

receiptme is an innovative enterprise-grade software designed to allow paper receipts to be sms'd or emailed directly to your client's smartphone - revolutionising the production and storage of receipts forever and providing your clients with a great user experience.

----- BASED ON MICROSOFT.NET FRAMEWORK -----

Utilising Microsoft.net framework, receiptme is simply installed onto your network or pc. Using our patent-pending interceptor driver, receiptme allows electronic receipting from any software.

----- BUSINESS INTELLIGENCE -----

Business Intelligence smarts is captured by recording of email addresses, phone numbers and spending trends.

----- SUSTAINABILITY -----

Sustainability is at the core of receiptme dramatically reducing your paper usage and carbon footprint, crucial for our environment.

----- EMAIL DOCUMENTS - LEGACY SYSTEMS -----

Legacy Systems? No problem. Now you can send any document to your user's phone or desktop without changing coding on your system; perfect for call centres.

----- FULLY CONFIGURABLE INTERFACE -----

This interface allows full control of all functionality, including bcc-ing of receipts directly to your repository; saving your enterprise huge costs in transport, scanning and storage.

PUT A SIMPLE SIGNATURE PAD WITH RECEIPTME AND SUDDENLY YOU HAVE A WAY OF CAPTURING DIGITAL SIGNATURES DIRECTLY ON THE ACTUAL RECEIPTED TRANSACTION.

Think of the dollar savings in document movement and storage, as well as the benefit of having transactions digitally captured. For banks, an actual receipt on your internet banking platform and/or from an ATM improves your user experience.

----- INNOVATION -----

Show the millennial generation and in fact all your clients that you are **innovative** by speaking to your receiptme partner so you can enjoy the **benefits of the receiptme revolution**.

RECEIPTME ALSO HAS AN APP ALLOWING THE DIGITISATION OF ALL RECEIPTS.
