KeyMax 1011 and 1011NFC

Multifunctional Keyboard for Banking & Insurance

HIGHEST QUALITY COMPONENTS

LONG LASTING MECHANICAL KEY SWITCHES

NON WEARABLE LASER ENGRAVED KEYCAPS

HOT SWAP IN FIELD ABILITY

In today's financial world you can't afford to waste time, let errors slip through your fingers or expose your organisation to security breaches.

It takes sophisticated equipment to help you handle encrypted documents and cards that are presented to your organisation.

By sophisticated we're talking about doing it all from one point, with an ergonomic, all-in-one keyboard that saves space, saves time, saves mistakes and prevents fraud.

The KeyMax 1011 is versatile with all the necessary functions required to process payments and transactions. Swipe, scan, read, process - it's all right there at your fingertips. One compact keyboard that can do the lot, it has a concise, user-friendly design that doesn't sacrifice functionality.

The On Group KeyMax Teller series can handle most types of documents or transactions, making them a necessary time, space and cost saving solution for the fast-paced and competitive fields of banking, finance and insurance.

KeyMax 1011 and 1011NFC are efficient and enable you to perform a multitude of tasks, providing security for the future and offering peace of mind.

All that from one keyboard? KeyMax is the smart choice.
